## 398 Floor Risers w/ Shutoffs

**Mounting Application:** Freestanding over-the-rim

- \* Overall height: 32" / Exposed Height 28"
- \* Running thread to faucet
- \* Solder inside at bottom
- \* Includes 2 x 12" wall supports / cut-to-fit adjustable

Can be used for the following series faucets:

Bath Faucets: Goose, Goose II, Spigot

Bath & Shower Kits: CDSH, Spigot, Goose

Model #	Finish
CDSH398CP	Chrome

### Pre-Installation Kit Instructions

Pre-install kits are supplied with our 9670 and 9670M series floor risers only

- Face plate is a template for drilling holes to exact measurements. You may choose to mount face plate to sub-flooring or wherever most convenient for added stability.
- Once face plate is mounted or holes have been drilled, take one mounting nut and one tube – slide tube through flooring or plate, take mounting nut under bottom of face plate or floor and thread onto tube. Take second mounting nut and thread on to tube above flooring. Mounting nuts should “sandwich” the tube to flooring.
- Repeat step (b) to other side.
- Sweat on copper water line to bottom of tube.
- Cover mounting nut above floor with escutcheons.
- Thread on Test Caps onto top of tube and conduct a test run for leaks etc. Once complete, take floor riser tube and place 3/4" washer between pre install tube and floor riser. Thread floor riser onto tube.
- Test again for any leaks etc. Troubleshoot if necessary

Note: All floor riser tubes are tested before being shipped. There should be no leaks, so long as installation is done properly. Any tampering with tubing will result in voiding the warranty.

#### IMPORTANT:

Test caps are to be used only for testing to see if there are any leaks in the installation. **By no means are the test caps to be left on the tubes unattended as the pressure from the water lines may crack or blow off the caps.** This is solely the responsibility of the installer to follow these instructions. SSSG, nor any of our suppliers, retailers, wholesalers or distributors will NOT be held liable for any damages caused by mistreatment or neglect.
